

## Centre for Microsoft Technologies

DEPARTMENT  
OF  
INFORMATION  
TECHNOLOGY

### Objective:

One of the most important aims of IMSEC is to develop its students at the excellent position in the current era of technology. The objective is to make the students understand the current trends and technological needs. To achieve these goals, IMSEC, in collaboration with Microsoft IT Academy, has started a Centre of Microsoft Technologies in the college campus.

The centre is a platform which provides access to innovative technologies and world-class expertise, enabling students to envision, design, and deploy solutions to meet their exact needs.

In this venture ATS Infotech Learning Solutions, the Microsoft Delivery Partner, provides different course curriculum of Microsoft IT Academy. The course contents are delivered by expert trainers by which the enrolled candidates get the experience of latest Microsoft Technologies. Surly, it opens the ways to get success in placement activities.

The course contains the detailed studies of C#.NET, ASP.NET and Cloud Computing of total 80 hours. During this session students obtain expertise through theory classes, practical labs and project development on Microsoft Technologies. After the successful completion of the course the participants appear in the Global Certification Exam and obtain the globally accepted certificate of "Microsoft Certified Professional".

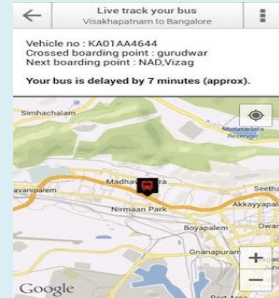

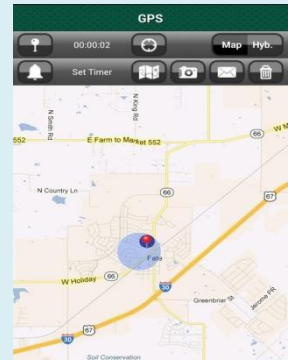

### INDUSTRY LINKAGES:
