

Intellectual Property Right Cell

Objective of IPR cell

IPR cell of IMS Engineering College has been constituted to provide learning cum interactive interface for intellectuals, engineers, scholars and professionals interested in Intellectual Property Rights, especially in the context of India. The main objective of this IPR cell is to create awareness and provide guidance to academic and non-academic staff of institute including students on the practices i.e. various forms of IPR, and the rules and regulation of intellectual property rights (IPRs) especially patent filing. Cell has endeavoured to create understanding about general IPRs like Trademarks, Patents, Copyrights and Designs, and unconventional rights like Geographical Indications, Plant Varieties and Topographies of Circuits by collaborating various organizations and eminent personnel who are actively involved in IP management.

Major Activities of IPR cell

- Increasing IP awareness among faculty, staff & students within the institute.
- Managing and protection of the institutional IP through patenting and other IP forms.
- To encourage faculty staff and students towards object oriented research at institute level
- To fill gap between industry and academic institute in terms of IP utilization and commercialization
- Provision of legal counsel in terms of IP issues and policy matters to institute faculty and students who involved in research
