

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING,  
IMS ENGINEERING COLLEGE  
offers

Online Internship Program on  
**Machine Learning & Computer Vision**  
with Complete Hands-on using Python

**Course Contents**

- Introduction to ML
- Data Handling with Python
- Feature Engineering with Python
- Data Visualization
- Regression Analysis
- Supervised Learning Algorithms
- Clustering algorithms
- Ensemble Techniques
- Image processing & Computer Vision with openCV
- Neural networks
- Deep Learning

**Students will learn to**

- handle real world problems dataset & visualization techniques
- implement & apply Machine Learning Algorithms using Python with real world problems
- work on image processing & Computer vision applications
- publish their obtained results in Research Journals
- implement complete life cycle of a project

**Course & Project  
Completion certificate**

**120 hrs Program**

**Complete hands-on  
Sessions with Python**

**Program will start  
from 25 Sep 2020**
