B.Tech.

(SEM. II) THEORY EXAMINATION 2013-14

INTRODUCTION TO BIO SCIENCE

Time : 3 Hours

Total Marks : 80

Note :—Attempt questions from each Section as per the given instructions.

SECTION—A

1. Attempt all parts of this question : (2×8=16)
- (a) List the main points of the Cell Theory.
 - (b) What is a Cytochrome ?
 - (c) Write brief note on the Nucleosome Model of DNA Packaging.
 - (d) What is RNA Splicing ?
 - (e) Define the process of Cloning.
 - (f) Write the underlying principle of Electrophoresis.
 - (g) Specify the role of the Restriction enzymes.
 - (h) Write in brief about the process of Lactation.

SECTION—B

2. Attempt any **three** parts of this question : **(8×3=24)**

- (a) (i) What is Krebs's Cycle ? Describe the steps involved in Krebs's Cycle.
- (ii) Define Polymorphism. Explain the structure, types and functions of Lysosome.
- (b) Enumerate the points of difference between DNA and RNA.
- (c) What is Cell Cycle ? Describe the various stages of Cell Cycle.
- (d) Describe the various steps involved in the process of gene Cloning.
- (e) Define Fertilization. Explain the stages of Pregnancy and Embryonic Development (Human).

SECTION—C

Note :—Attempt any **one** part of this question : **(8×5=40)**

- 3. (a) Describe with suitable diagram the fluid mosaic structure of Plasma Membrane and list its functions.
- (b) Describe the various steps involved in the EMP pathway.

4. (a) Explain with the help of suitable diagrams the process of DNA replication.
- (b) What is Transcription ? Describe with suitable diagrams the formation of m-RNA from DNA template.
5. (a) Write in detail about asexual and sexual methods of Reproduction.
- (b) With the help of labeled diagrams explain the process of mitosis in an animal cell.
6. (a) What is Genome ? Describe the Human Genome Project and write about the salient features of human genome.
- (b) What are Stem Cells ? Give the characteristics of the Embryonic and Adult Stem Cells.
7. (a) Give the different phases of a menstrual cycle and explain the various changes that occur in each phase.
- (b) What is Contraception ? Discuss the different methods of birth control.
