Note: 1. Attempt all Sections. If require any missing data; then choose suitably.

SECTION A

Attempt all questions in brief. $2 \times 10 = 20$ 1. Q no. Question Marks Define the term Transducer. 2 a. Define the parameter measured with a Strain Gauge. 2 b. What is an RTD used for? 2 c. Explain level sensors and their applications. d. 2 Define the term instrumentation. 2 e. What are clusters and graphs? f. 2 What is a timer? Explain with an example. 2 g. What are the applications of a data socket? 2 h. i. Define the term sensors. 2 What is an autonomous robot? 2 j.

SECTION B

| 2. | Attempt any <i>three</i> of the following: | | . 1 |
|----|---|----|-----|
| a. | Define different categories of sensors and the process to select a sensor | 10 | 1 |
| | for any process. | (| 05 |
| b. | Define different types of Proximity sensors. | 10 | 2 |
| c. | Elaborate on different techniques used for Graphical Programming. | 10 | 3 |
| d. | Define the basic block diagram of a Data Acquisition System. | 10 | 4 |
| e. | What is an intelligent sensor? Define different components associated | 10 | 5 |
| | with intelligent sensors. | | |

SECTION C

| | SECTION C | | |
|----|--|----|---|
| 3. | Attempt any <i>one</i> part of the following: | | |
| a. | What is an LVDT and how it is arranged for measuring pressure? | 10 | 1 |
| b. | What is a piezoelectric sensor? Define one application of the | 10 | 1 |
| | piezoelectric sensor. | | |
| 4. | Attempt any <i>one</i> part of the following: | | |
| a. | What is Hall Effect and how it is used for measuring position? | 10 | 2 |
| b. | Define different sensors used for measuring temperature. | 10 | 2 |
| 5. | Attempt any <i>one</i> part of the following: | | |
| a. | What is industrial instrumentation? Define different software tools used | 10 | 3 |
| | for automation. | | |
| b. | What is virtual instrumentation? Define different advantages of virtual | 10 | 3 |
| | instrumentation. | | |
| 6. | Attempt any one part of the following: | | |
| a. | Explain different types of Analog-to-Digital Converters. | 10 | 4 |
| b. | What are Input-Output (I/O)? Define different types of I/O. | 10 | 4 |
| 7. | Attempt any <i>one</i> part of the following: | | |
| a. | Define the characteristics associated with Intelligent Sensors: | 10 | 5 |
| | Self-calibration, Self-testing & self-communicating. | | |
| b. | Define the process and techniques associated with Automobile Engine | 10 | 5 |
| | Control. | | |
| | | | |
