

B. TECH.
(SEM IV) THEORY EXAMINATION 2018-19
ENVIRONMENT & ECOLOGY

Time: 3 Hours

Total Marks: 70

Note: Attempt all Sections. If require any missing data; then choose suitably.

SECTION A

- 1. Attempt all questions in brief. 2 x 7 = 14**
- Explain bio-magnification with examples.
 - Why green house is necessary for the earth?
 - Define BAP and its source of production.
 - “Sea is a major sequestering medium of carbon”. Justify it.
 - Define BOD.
 - Explain flood and its main causes.
 - What do you understand by the term “Biotic and Abiotic” with examples?

SECTION B

- 2. Attempt any three of the following: 7 x 3 = 21**
- What are the different ways to restore the damage of ecosystem? Explain In-situ approach for conservation of ecosystem.
 - Draw and explain nitrogen cycle. Explain nitrification and denitrification process.
 - What is meant by environment? Enumerate and discuss its various components.
 - Define the term biodiversity? Explain the types and importance of biodiversity in detail.
 - Explain the need of education for controlling the pollution? What are bio-indicator and their types?

SECTION C

- 3. Attempt any one part of the following: 7 x 1 = 7**
- Define biomass and biogas energy. Explain the different types of biogas plant with suitable diagram.
 - Explain why water logging and salinity are responsible for decrease in soil fertility.
- 4. Attempt any one part of the following: 7 x 1 = 7**
- Write an explanatory note on the multidisciplinary nature and importance of environmental studies.
 - Explain the term food chain and food web. Depict the various types of food chains and food web with suitable examples.
- 5. Attempt any one part of the following: 7 x 1 = 7**
- What is air pollution? Explain the different sources, effects and controlling measures of air pollution.

- (b) Discuss in brief the salient feature of the Water (Prevention and Control of Pollution) Act, 1974.
6. Attempt any *one* part of the following: 7 x 1 = 7
- (a) What is depletion of ozone layer? Give causes and effects of deletion of ozone layer.
- (b) Discuss the adverse impact of urbanization and industrialization on environment and suggest suitable remedial measures.
7. Attempt any *one* part of the following: 7 x 1 = 7
- (a) Describe what are the functions of NGOs for the controlling the pollution.
- (b) What do you understand the term 'solid waste management'? Name and briefly discuss the basic functional elements of solid waste management.
