**2. Attempt any two of the following.**

**CASE STUDY**

The industry in which AXE operates has been segmented by Unilever based on the variables such as Gender, age, income, region, behavioral characteristics, attitude etc. Undifferentiated targeting strategy is used by the brand, as the Men have been the target audience for the offerings of the company. AXE has positioned itself as a brand questioning the status quo of the male population and breaking the stereotypes. It uses user benefit based positioning strategy. A multi-channel strategy is used by the company to make the AXE brand of products available to the customers. It distributes the products through different mediums such as distributors, retailers, resellers, pops & mom stores, and e-commerce sites.

- (a) Analyse the STP strategy adopted by AXE.
- (b) How Axe uses multiple distribution strategy in Indian market? Discuss.
- (c) How AXE has broken the stereotype of Indian male population? Discuss.

**SECTION C**
