

IMS ENGINEERING COLLEGE, GHAZIABAD

Green Campus Policy

Vision

Vision is to maintain an environment friendly campus and create awareness among the students, faculty & staff members and general public about the significance of conservation of environment for sustainable living.

Mission

- To maintain a green and clean campus.
- To create awareness among all the stakeholders about the hazards of polluting the environment.

Green Policy of the College

- Rainwater Harvesting
- Installation of Solar Panels to reduce greenhouse effect
- Waste Management
- Tree plantation in the campus
- Discourage to use plastic in the campus
- Restrict entry of vehicles in the campus
- Display boards in the campus to create awareness
- Environment Audit may be conducted

Rainwater Harvesting

Rainwater Harvesting is a good technique to maintain ground water level and conserve the environment. Towards this, institute has created many rainwater harvesting points (more than 10) in the campus.

Installation of Solar Panels to reduce greenhouse effect

Institute has taken an initiative to install 184KW solar power generation capacity in the campus to reduce the harmful effects of greenhouse gases.

Waste Management – contractor makes fertilizer, STP for water

All the solid waste generated in the campus is properly disposed off to make fertilizer. Water waste is processed through a Sewage Treatment Plant inside the campus itself.

Tree plantation in the campus

Institute has taken several initiatives to make the campus green. Institute has many big trees planted inside the campus to have clean environment for the everyone in the campus.

Discourage to use plastic in the campus

Students are sensitized from time to time to avoid using single use plastics as use of plastic impacts the environment adversely. During the Swachhata Hi Seva 2019 campaign of Govt. of India from 11 Sep. 2019 to 27 Oct. 2019, all the stakeholders were sensitized about hazards of use of plastic.

Restrict entry of vehicles in the campus

IMSEC has adopted a policy of restricted use of vehicles in the campus. Students are discouraged from keeping automobiles on campus as use of vehicles inside campus have significant effects on the campus life. Boarding point of cabs/autos is generally outside campus gate.

Display boards in the campus to create awareness

Display boards that promote awareness about the environment and healthy living are displayed at prominent locations in the campus.

Environment Audit may be conducted

Two gardeners are appointed for the maintenance of trees, plants and overall greenery in the campus. The College may conduct an Environment Audit every year.

Pedestrian Friendly Pathways

The institute has developed pedestrians all over the campus ground to protect flora and fauna. The pedestrians provide pathways to visitors and maintain the clean and green campus.

NOTICE

Towards Green and Clean Campus

To address the issue of greenhouse effect and pollution in campus, you are advised to follow the following guidelines. The objective is to have healthy living in the campus for all students and faculty.

1. Avoid using single use plastic bottles (used for mineral water, cold drinks, etc) as much as possible. Also avoid using plastic bags.
2. Dispose off your plastic waste properly in dustbins so that it can be sent for recycling. Throwing it on road cause environmental hazards.
3. Avoid vehicles (cars, autos) inside the campus as much as possible. Board/leave vehicles from/to outside campus gates.

Dear students, our little efforts in this direction may go a long way in providing sustainable living for everyone in the campus.

NOTICE

Plastic Waste Free Campaign (Swachhata Hi Seva 2019)

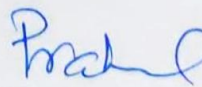

To address the environmental hazards caused by plastic, Govt. of India has started a plastic waste free campaign (Swachhata Hi Seva 2019) from 11 Sep. 2019 to 27 Oct. 2019. The campaign will have plastic ban as one of the primary objectives to address the problem of environmental hazards caused by plastic. Towards achieving this objective, you are requested to follow the following guidelines.

1. Don't use plastic bags. Instead, you should use cloth/jute bags which are environment friendly as well as their use will provide a source of income to thousands of people.
2. Avoid using single use plastic bottles (used for mineral water, cold drinks, etc) as much as possible. You are advised to carry water bottles while you step out of your home.
3. Dispose off your plastic waste properly in dustbins so that it can be sent for recycling. Throwing it on road cause environmental hazards.
4. Make your friends and family aware of this cause so that this campaign can be made highly successful.

Dear students, our little efforts in this direction may go a long way in providing sustainable living for ourselves as well as our future generations.

Sub. : Green Campus Initiative with Swachh Bharath Mission Focus.

Dear Sir/Madam,

International Institute of Waste Management (IIWM) has a credential of supporting the Government of India to achieve its developmental goals with respect to sustainable Environment with special focus on waste management. Established in the year 2009, the institute is functioning in India for the past six years. International Institute of Waste Management (IIWM) is currently affiliated, empanelled and / supported by the Ministry of Drinking Water and Sanitation, Scientific and Industrial Research Organization (SIRO), Ministry of Science and Technology, the Central Pollution Control Board (CPCB), several state Pollution Control Boards and the CSIR institutes working in related fields. It has partnered with several International agencies like GIZ, the German Government Organization, UNICEF, WASH United, etc. It has its head office at Bengaluru, Karnataka and branch offices at Bhopal, Madhya Pradesh and presence in New Delhi. International Institute of Waste Management (IIWM) proposes to undertake the United Nations Global Universities Partnership for environment and Sustainability (GUPES) programme, under the banner of 'Green Campus' in India.

You are requested to actively participate in quality improvement in campuses by making all out efforts to implement the Green Campus initiative with Swachh Bharath Mission in your institute, so that the younger generation and the country benefit from it in the long run. It may be stated here that International Institute of Waste Management (IIWM) will co-ordinate with institutions in providing necessary Technical Know-how and assistance. The address and communication details of International Institute of Waste Management (IIWM) are as follow:-

International Institute of Waste Management (IIWM)

No. 11, Diamond House, Ground Floor,

Gurappa Avenue, Primrose Road (off MG Road)

Bengaluru – 560 025, Karnataka, India

Tel: +918025599079; e-mail: info.bangalore@iiwm.in ; Website: www.iiwm.in

Dear Sir/Madam,

Please find the attachment in connection with DO letter by Hon'ble Chairman AICTE written to the Principals/Directors of all AICTE Approved Institutes in connection with Green Campus Initiative with Swachh Bharat Mission Focus.

In view of this, you are kindly requested to take necessary action at your institute level towards achieving Green Campus with Swachh Bharat Mission Focus.

With Regards
AICTE
