

## Report on Environmental promotional activities conducted outside the campus

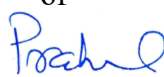

A large number of activities are conducted annually to promote the environment. The students participate in poster making, Rangoli, nukkad natak, webinars etc. based on green environment, say no to plastic, anti-pollution themes A few of them are displayed here-

1. IMS Engineering College (IMSEC) Ghaziabad organized an Educational tour in Purva Madhyamik Vidayalya (U.P.S. Nahal Middle School) in Village Nahal on Tuesday, 4th February 2020. There are approx 300 students in this school and ratio of boys and girls is 70 & 30 percent. A total of approx 150 students had attended this educational program based on environmental management. The students belong to 6th to 8th standard. Dr Suman Gupta, the faculty of IMSEC conducted a very informative session on removal of dust and smoke from polluted air by traditional Indian medicinal plantation method in villages and rural area without spending extra money and labour.

2. Plant Distribution Program for Students and Community are regularly organised where saplings are distributed to Students and visitors at various Occasions.

3. Department of MBA conducted quiz based on environment theme by online mode. There were large of participants from various colleges. The quiz was conducted through google forms displayed at the facebook page of the
