Chairman's Message

The pace of transformations in the global economy and unprecedented economic and technological challenges encountered by the business world has given rise to great opportunities for evolving newer methodologies and innovative goals of knowledge sharing in the fields of engineering and management.

Since its inception, IMSEC has been continuously evolving by pursuing and inculcating several innovative ways of teaching, learning and experience-sharing by demonstrating accomplishment of time-bound mission-oriented goals. This has been made possible by creating an intellectual capital of in-house human resources of highly qualified and experienced faculty members, state-of-the-art infrastructure, modernized well-equipped laboratories, Wi-Fi campus, and the sprawling Central Library for effective and efficient learning, which is further fortified with a course curriculum that meets the needs of the industries.

We have consciously created a culture that values collegiality and accessibility, with open doors at all levels.

IMSEC is committed to nurturing talent and remains deeply rooted to the roots of education and technology. Our priority is to instil in our students a sense of commitment and to expand their knowledge and their intellectual horizons so that they emerge transformed and prepared to have an impact on the world of business and society at large.

Wishing all aspirants good luck.

Shri Naresh Agarwal

Chairman, IMS Society

Director's Message

I am a firm believer that only knowledge can transform a human being to "being human". Undoubtedly, technical and management education play a pivotal role to cope and combat with the challenges of this unprecedented world on both the fronts. To have a sustainable mankind across the world and to cultivate innovations and research to create an unmatched and persistence ecosystem of holistic growth to excel others in this highly competitive arena.

IMS Engineering College, Ghaziabad, since its inception (2002), has been highly successful in maintaining a learning environment and a flexible conducive ambience which thrives and strives for an incredible vision to accomplish and that's too within a stipulated time frame.

I am confident enough that this sacred objective of mine to catapult the students' fraternity to refined intellectuals with professional attributes is not a dream but a reality. The key stake holders of IMSEC-GZB, i.e. our students and the faculty members are always well acquainted and prepared to unleash the potentials in them in the right perspective to enrich their knowledge and other cognitive skills using the ecosystem of our institution.

We practice a pedagogy that promotes creativity, innovation in teaching-learning practices of high standards. Every course is designed, delivered and monitored in such a manner that will add a significant value and flourish innovation to the students. We embrace and admire a vast cultural diversity which enlightens us in all aspects of life. Nurturing a sense of eco friendliness in the atmosphere makes us democratic and participatory in nature otherwise it will be detrimental and fatal for all of us. Nevertheless, we equally emphasize on the development of core human values, mental well-being and physical well-being of our students.

Last but not least, we are student driven. The welfare of our students is always our top priority. Thus, we do modify our academic infra and invest on latest technological know-hows and on acquiring management skills from time to time as per the need of the industry. We have to navigate the young energetic minds for metamorphosis through academic rigor and imbibing corporate soft skills & ethical values to get accommodated in the current professional scenario. I feel that actions should speak volumes better than words for adding laurels on our ongoing legacy. I am culminating with this sincere gratitude towards all our stake holders who have shown trust on us.

Thank you.

Dr. Vikram Bali
B.Tech., ME, P.hD
