Dear Mr. Vishal Rathi,

We would like to take this opportunity to extend you a very warm welcome to TATA Consultancy Services Limited (TCSL) family.

We are pleased to inform you that your joining date at TCSL will be **07th July 2022**, your joining location is **New Delhi** and work location is **New Delhi**. This has been provided considering your preference and business requirements.

TCS Onboarding Team will reach out to you over email in the next few days to guide you further on the onboarding process and steps to be taken to prepare yourself for onboarding.

Congratulations on completing the first phase of your learning through TCS Xplore Program. We appreciate your passion towards learning which has helped you to perform well. You are now set to experience learning through our coveted TCS Xperience Program.

Prediction of COVID-19 Confirmed, Death, and Cured Cases in India Using Random Forest Model

Vishan Kumar Gupta*, Avdhesh Gupta, Dinesh Kumar, and Anjali Sardana

Abstract: A novel coronavirus (SARS-CoV-2) is an unusual viral pneumonia in patients, first found in late December 2019, later it declared a pandemic by World Health Organizations because of its fatal effects on public health. In the present, cases of COVID-19 pandemic are exponentially increasing day by day in the whole world. Here, we are detecting the COVID-19 cases, i.e., confirmed, death, and cured cases in India only. We are performing this analysis based on the cases occurring in different states of India in chronological dates. Our dataset contains multiple classes so we are performing multi-class classification. On this dataset, first, we performed data cleaning and feature selection, then performed forecasting of all classes using random forest, linear model, support vector machine, decision tree, and neural network, where random forest model outperformed the others, therefore, the random forest is used for prediction and analysis of all the results. The K-fold cross-validation is performed to measure the consistency of the model.

Key words: coronavirus; COVID-19; respiratory tract; multi-class classification; random forest

1 Introduction

The virus of coronaviruses (CoV) is a special kind of virus that itself is a disease and it enhances the existing disease in humans body which makes it a very dangerous virus. This virus results in wheezing, hard to breathe, bad digestive system, and liverwort, effects badly human nervous system (center), and also harms animals like cows, horses, and pigs that are kept, raised, and used by people and different wild animals. In

2002–2003 the epidemic of Severe Acute Respiratory Syndrome (SARS) and in 2012 the burst of the Middle East Respiratory Syndrome (MERS) have illustrated the probability of transferrable newly arrived COVID-19 in human to human and animal to human and vice versa, though there are very fewer cases of this kind, they do exists. In late December 2019, the effect of secret pneumonia in the whole world is a noticeable topic of study^[1].

In India, the first case of coronavirus disease 2019 (COVID-19) was announced on 30th January 2020. This virus extends to the whole of India (in their different districts) till April 2020 end. In India, the total cases announced were 5734 in which 472 were recovered and 166 people were dead till 9th April 2020. In India, the total cases announced were 236184 in which 113233 were recovered and 6649 people were dead till 6th June 2020. After this date, fresh cases are still coming into light daily which is around 10000. In India, the infection rate of COVID-19 is lesser than that in some other countries till date. The website worldometers^[2] gives us all these details in a precise manner. Figure 1 is

MEMORANDUM OF UNDERSTANDING

is made on the 3rd of February, 2021

Between

IMS Engineering College, National Highway 24, Near Dasna,
Adhyatmik Nagar, Ghaziabad, U.P (201015)

AND

Codon Biotech Private Limited (CBPL)
153, Vardhaman City Centre, Gulabi Bagh, Delhi - 110037

Background

- i. **IMS Engineering College, Ghaziabad (IMSEC)** is an engineering institute in north India running B.Tech and M.Tech courses in various branches of science and technology. Its **Biotechnology Department** is NBA accredited and runs B.Tech, M.Tech courses in Biotechnology. It is also an authorised research centre of AKTU for PhD course while **Codon Biotech Private Limited (CBPL) having its registered address at 153, Vardhaman City Centre, Gulabi Bagh, Delhi**, is a biotechnology company that manufactures wide spectrum testing kits and share interests in both Research & Academics.
- ii. The two Parties have identified that a stronger relationship between them is mutually beneficial and wish to establish a more formal relationship with each other.

Commencement

This Memorandum of Understanding ("MOU") shall take effect on the date of signing and shall continue for a period of 5 years unless terminated earlier in accordance with the provisions of Clause 6.

Scope of MOU

The areas of agreement outlined in this MOU are described to facilitate more detailed and specific negotiations between the parties which may lead to the preparation and signing of one or more formal agreements between **BT-IMSEC** and **CBPL** unless specifically noted herein. This MOU is not intended to be of legal force and effect in any manner whatsoever. This MOU shall not create a legal relationship between the parties.

Broad Areas for Cooperation

BT-IMSEC and CBPL will discuss the possibility of cooperation in the following areas:

- I. Research collaborations
- II. Joint PhD guide
- III. Student Training
- IV. Student Placement

Representatives of the Parties may agree to review the operation of this MOU from time to time.

1. Joint Contributions

- 1.1. Potential areas for collaborative research will be identified and recorded in subsequent research specific agreement(s) that set out appropriate and relevant contributions by the Parties. These may include:
 - (a) Access to its research laboratories and assist in development of projects involving the parties.
 - (b) Joint submission of research proposals to national and international organisations to obtain support for their common research objectives.
 - (c) **BT-IMSEC** and **CBPL** shall work specifically in the areas defined in Para 1.1 and para 3.1.
- 1.2. The parties acknowledge that all specific financial arrangements proposed must be negotiated and will depend upon the availability of funds and organizational approvals.

2. Confidentiality and Privacy

- 2.1. **BT-IMSEC** and **CBPL** recognize that they will come into possession of information which the other considers to be confidential, including Personal Information ("Personal Information" means information and opinions recorded in any form about an individual whose identity is apparent, or can reasonably be ascertained, from the information or opinion). Each of **CBPL** and **BT-IMSEC** covenants and agrees that it shall not, at any time, disclose to any third party, any confidential information of another party without first having obtained the prior written consent of the other party.
- 2.2. The provisions of this Clause 5 are intended to and shall be binding upon the parties upon signing of this MOU, and shall survive till the termination or expiry of this MOU.

3. Intellectual Property

- 3.1. "Intellectual Property" means and includes all copyright, all rights in relation to inventions (including patent rights), plant varieties, register and unregistered trade marks, registered and unregistered designs and all other rights resulting from intellectual activity in the scientific, industrial, literary or artistic fields.
- 3.2. Each party shall retain all rights to existing intellectual property belonging to it and contributed by it ("Background IP") at the commencement of each Research Project arising under this Agreement.
- 3.3. If any IPR issue emerges as a result of joint research, then a specific IPR addendum will be jointly agreed upon.

4. Termination

- 4.1. Either of **BT-IMSEC** or **CBPL** may terminate this MOU by written notice to the other party. A minimum period of six months notice will be required from a party wishing to terminate the MOU, or such shorter period as the parties may agree upon in writing.
- 4.2. The termination of this MOU shall not affect the implementation of activities that have been undertaken prior to such termination, unless agreements pertaining to such activities explicitly provide for such termination.

5. Amendments and Supplementary Agreements

- 5.1. The parties may agree to amend this MOU at any time by further memorandum in writing executed by the duly authorized officer(s) of each party.
- 5.2. The Parties shall wherever necessary enter into written agreements to facilitate collaborative activities arising from this MOU. Such agreements will specify the details of agreed activities and programs, including the contributions and responsibilities of the parties, funding, intellectual property provisions, confidentiality, risk allocation and indemnity obligations of each party.

6. Use of Name and Logo

- 6.1. No party shall use, nor permit any person or entity to use, the name or logo (or any variation thereof) of another party without first obtaining prior written consent from the other party. The Parties intend that this provision shall be binding upon them and

shall survive the termination or expiry of this MOU.

Organising Institute: Indian Institute of Technology Kharagpur

General Information

The GATE 2022 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,
 M is the marks obtained by the candidate in the paper, mentioned on this GATE 2022 scorecard
 M_q is the qualifying marks for general category candidate in the paper
 M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
 $S_q = 350$, is the score assigned to M_q
 $S_t = 900$, is the score assigned to M_t

In the GATE 2022 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2022 does not guarantee either an admission to a post-graduate program or a scholarship/assistantsip. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2022 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this score card.

Organising Institute: Indian Institute of Technology Kharagpur

General Information

The GATE 2022 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,
 M is the marks obtained by the candidate in the paper, mentioned on this GATE 2022 scorecard
 M_q is the qualifying marks for general category candidate in the paper
 M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
 $S_q = 350$, is the score assigned to M_q
 $S_t = 900$, is the score assigned to M_t

In the GATE 2022 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2022 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2022 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.
