**2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.**

The college is affiliated to Dr. A.P.J. Abdul Kalam Technical University, and hence, follows its rules and guidelines regarding the assessment and evaluation process of the performance of the students.

Academic calendar and schedule are prepared at the beginning of each semester and available on the website of the college and circulated among the students by the department. It is strictly followed by the college. Thus, students know about the dates of class tests (CT), and hence, can plan accordingly.

The schedules of internal assessment for laboratory, seminars, summer internships and project are informed to the students through notice in advance. The Faculty Coordinator in consultation with the Head of the Department prepares a schedule of presentation of students in the slots and communicated to the students.

There is complete transparency in the internal assessment. Class tests (CT) are conducted by the institution to evaluate student performance. Internal Assessment is done via two class tests (CT-1 & CT-2). The duration between these three tests is kept such that students get ample time for preparation. After valuation, marks are displayed by faculty members and assessment copies are shown to the students.
