Soft Skills Training Program

(Program Completion Letter)

This is to certify that Department of Applied Sciences & Humanities, IMSEC Ghaziabad has successfully completed a 66 hours **'Soft Skills Training Program'**. The training program commenced on June 10, 2019 and ended on July 09, 2019. The program was coordinated by Dr Arvind Kumar Sharma and Dr Archana Sharma. It was a three hours class everyday in which the students were taught, trained and given proper guidelines and in the later part of the class the students performed their skills through scheduled activities. By conducting mock interviews and group discussions the students' communication skills, presentation skills, kinesics, paralinguistics and proximics were examined and guided to improve their shortcomings. The certificates were awarded based on the students' performance and their attendance.

Soft Skills Training Program

Introduction

'Soft Skills Training Program' has been designed for the students to get self confidence, enthusiasm and presentation skills so that they may be proficient in their personal and professional life. The main motive of this course is to strengthen the students from within. Soft skills empower them to understand "who they are" and how best they can come across as competent individuals in any given situation. The training in soft skills has two parts. One part involves developing attitudes and attributes, and the other part involves fine-tuning communication skills to express attitudes, ideas, and thoughts well. The perfect integration of ideas and attitudes with appropriate communication skills in oral, written, and non-verbal areas is must for the success of the program. Attitudes and skills are integral to soft skills. Each one affects and complements the other. Grooming of the students should begin with a preliminary test in the English language to determine their level of competence in the use of English for effective communication both oral and written. The idea is to ensure that students are oriented to understand that a manager's key job is to be able to express himself clearly, correctly, and concisely. To achieve optimum results module has to be made for training programs giving stress on language, communication skills and behavioral skills.

Objectives

The prominent objective of this program is that the students should be able to:

i) Develop effective communication skills
ii) Develop effective presentation skills.
iii) Conduct effective business correspondence and prepare business reports which produce results.
iv) Become self-confident individuals by mastering inter-personal, team management, and leadership skills.
v) Develop all-round personality with a mature outlook to function effectively in different circumstances.
vi) Develop broad career plans, evaluate the employment market, identify the organizations to get good placement, match the job requirements and skill sets.
vii) Take part effectively in various selection procedures adopted by the recruiters.

Program Outcomes

In this Soft Skills Training Program training should be imparted to fine-tune the students' attitudes, values, beliefs, motivation, desires, feelings, eagerness to learn, willingness to share and embrace new ideas, goal orientation, flexibility, persuasion, futuristic thinking, diplomacy, and various skill sets of communication, manners, and etiquette so that they will be able to deal with different situations diligently and responsibly.

Through this program participants will develop their social and work-life skills, as well as their personal and emotional well-being. They will make their personal and professional life smooth and comfortable by imbibing the following skills.

Communication – Being confident in communication the students will be able to demonstrate clearly and concisely. By learning effective listening skills they will not be afraid to ask for any help or support when necessary.

Resilience – The students will grasp the time management to handle the controversial situations. They will learn to keep going when things don't go according to plan and can learn managing disappointment and dealing with conflict

Teamwork – The students will recognize the importance of team and individuals. They will be able to connect and work with others to achieve a set task.

Leadership – Leadership plays a vital role in professional life. With the help of this program the students can assess the requirements of a task, identify the strengths within the team, and utilize the diverse skills of the group to achieve the set objective.

Emotional maturity and emotional health – This program will help the students to handle emotions including tolerance and behavioural responses so that they may build positive friendships and bonding with peers and classmates. They will also learn to show understanding and to demonstrate respect for the opinions, personal space and beliefs of others

Confidence and enthusiasm for learning – The students will develop self-motivation, raised aspirations and belief in their own abilities. By self confidence and enthusiasm they will easily achieve their goals.

Responsibility – The students will acknowledge the significance of responsibility and will be a responsible employee in professional life and perform accountability in society.

Employability skills – The students will master on employability skills by recognizing the time and resource management, conflict resolution, teaching and mentoring others.

Subject: **Request for approval of conducting 'Hands-on Training in Molecular Biology' tentatively scheduled from 4th -13th June, 2019.**

Dear Sir,

We are planning to conduct a 'Hands-on training in Molecular Biology' for students of B.Tech. Biotechnology in the month of June after completion of University practical exams.

Our training program would be of **10 days (4th June-13th June'2019** tentatively depending on the external practical) covering basic and advanced tools/techniques of Molecular Biology. There would be theory sessions followed by practical (wet lab) and result analysis sessions. The **Fees are charged for this training would be Rs. 3500/-** (Three thousand Five hundred only) **per student.**

The expected expenditure (details attached) for the program will be as below:

S. No.	Amount collected and expected expenditure	Amount
1.	**Amount generated through training fees** (already received)	**Rs. 56000/-**
2.	**Expected additional expenditure** a. Chemicals, Kits and plastic-ware procurement b. Stationery c. Miscellaneous	Rs. 42815/- Rs. 2310/- Rs. 1500 /-
	Total	**Rs. 46625/-**

The following faculty members would be involved in this program-

- **Prof. Siva Prasad Venkata Satya Chekkara** Molecular Biology
- **Dr. Indu Bhatt** Molecular Biology
- **Dr. Vivek Kumar** Molecular Biology

We seek your permission for conducting the above mentioned program. Attached herewith are the list of participating students and fee details (Annexure-1), requirements (Annexure-2), quotations from three vendors (Annexure-3), comparative quotation of chemicals, kits and plasticware (Annexure-4).

Thanking you.

Best Regards,

(**Prof. Siva Prasad Venkata Satya Chekkara**)

Student testimonials

Harsh Pratap Singh (1714310083)
(B.Tech CSE 4th Year)

I learnt a great deal about machine learning through this training program. it gave me confidence to work on New projects and learn more about ml techniques. Both mam and sir were really helpful . taught us really well and helped in individual projects as well

Jagrati Sahu (1714310083)
(B.Tech CSE 4th Year)

The instructors were very supportive and informative throughout the training. Their way of teaching was very engaging. and also by giving real life projects they made us to utilise our potential and learnings to the maximum. This online course of machine learning has proved to be very effective for me. The mentors were very supportive and theyy taught us in a very effective manner. They gave us real life projects to utilize our learnings. This training has helped me to built in confidence within me in the fiepd of machine learning.

Megha Kamboj(1714310104)
(B.Tech CSE 4th Year)

It was a good experience for me. I benefited a lot as I have learnt various techniques of ML and I have also completed a project and achieved certificate during this training. Yes, I gained a lot of confidence.

Nikita Sharma (1714310118)
(B.Tech CSE 4th Year)

It helped me a lot in other internships also. I gained detailed knowledge and cleared all the concepts.

Himanshu Vishwakarma (1714310079)
(B.Tech CSE 4th Year)

From all the knowlege that I gained during the internship I was able to make 5 different projects based on machine Learning

Raghav Rastogi(1714310141)

Online Machine Learning Session was very effective . helped me gain knowledge about various machine learning algorithms and technique and also their real world applications. This project provided me the base for making Projects on Machine learning ans AI. Instructors had indepth knowledge about topics and also cleared doubts effectively.

Saurabh Singh (1714310166)
(B.Tech CSE 4th Year)

The content of this course is best and specially the efforts of our mentors they keep our flow and and make our lockdown useful by this internship. The best part of this internship is that we did project related to the all of the topics of ML and secondly the research paper. our mentor help us in writing the research paper and guide us that how can we published them. The way of teaching and planning of the course content was great . it show the 100% effort of the instructors .they covered all the topics of Ml and clear our all doubts . it was the great initiation by them to teach us ML even in lockdown and continue the learning process of their students. The most important and unique thing of this internship is the research paper. Our mentors motivate us to write research paper and help us to write them.

Km Jyoti Rani (1714310093)
(B.Tech CSE 4th Year)

I did not have any idea about Machine Learning before . but after these sessions I've some knowledge of Machine learning concepts.

Online Summer Internship on Block Chain Technology

120 Hrs

Topic	Details Around The Topic
Start with distributed systems and it's applications	
Blockchain and its Impact?	Definition of a Blockchain; Why Blockchain is better than a traditional systems
	History of Bitcoin; Blockchain Industry Developments
Cryptography & Blockchain Concepts	Asymmetric & Symmetric cryptography
	Data Structures in Blockchain - Ledgers, Blocks, Transaction and Understanding Wallets
Distributed Ledgers and P2P Networks	P2P Architectures and advantages of P2P Paradigm
	Decentralized applications (dApps) and DLT's as a backbone
Use Cases & Applications	Describing some use cases
	Blockchain Challenges - Adoption & Technical; Where NOT to Use Blockchain
Decentralization	Reliance on Intermediaries in Legacy Systems
	Definition of Decentralization - Levels & Extents
	Offchain & Onchain
Understanding Immutability and Consensus Mechanisms	Understanding Immutability
	Requirement of Establishing Consensus and Consensus Mechanisms (PoW (Double Spend Problem), PoS, PoET Mechanisms
Blockchain Classifications	Types of Blockchain & their Features – Private, Public, and Permissioned Blockchain
Smart Contracts and Logic Tier	Smart Contracts as the next Logical Frontier
	Definition of Smart Contracts
	Applicability of Smart Contracts
Introduction to Hyperledger	The Linux Foundation & Hyperledger? Projects under the Umbrella
Introduction Hyperledger Sawtooth	Introduction Hyperledger Sawtooth; Sawtooth Technology Stack & Tools
Sawtooth Architecture	Global States; Transaction & Batches; Journal & Transaction Scheduling; REST API; POET 1.0 & SGX
	Configurations & Permissions (On-chain & Off-chain); Transaction Lifecycle
	Sawtooth Events
Starting Development with Sawtooth	Installing & Running Sawtooth; Start component services; Generate keys; Register validator
	Configure peering; Verify install and fix if necessary
	Connect transaction processor to validator; Create genesis block; Verify system meets hardware requirements
	LAB HOURS - Hands on with sample dAPP development*
Off-chain Sawtooth Configuring	Configure validator peering & network, consensus, logging, REST API, transaction processor endpoint
	LAB HOURS - Hands on with sample dAPP development*
On-chain Permissioning & Configuration	Permission a transaction processor, Policy management, Validator registration, System permissions

	Configure validator local policy file & key permissioning
	Role management: transactor roles & network roles; Configure transactor permissions
	Secure connections between components & between validators
	Manage validator keys and secrets
	LAB HOURS - Hands on with sample dAPP development*
Smart Contract & DAPP Development	Smart Contracts and their applications; Nature & Properties of Smart Contracts; Best Practices & Standards
	Available SDK's and their usage, Global States in Sawtooth, Choosing your SDK or language for your Transaction Processor.
	Addressing Schemes, Creating your First Smart Contract; Default Smart Contracts – Identity TPs, Settings TP, Registry TPs
	Logging, Debugging & Troubleshooting
	LAB HOURS - Hands on with sample dAPP development*
Other Blockchain Development Networks	Limitations of Bitcoin and Ethereum Networks
	Multi-chain, Tendermint, Corda, Stellar and other Development Applications
	Salient Features
	Use Cases*
Multilayer Middleware and Design	Architecting Blockchain Solutions
	A thought on Blockchain with IOT, AI/ML*
	Design Considerations
The Outlook Ahead (Hashgraphs)	Concept of Hashgraphs
	Improvements in Throughput
d-Governance: Impact of Blockchain	Utilities of Blockchain in the Future
	d-Governance: Impact of Blockchain
	Introduction to Scaling and Production
QUIZ & EXAMINATION	
Project	Project work (Off site, Cloud VM for individual trainee, email Q&A, Final review)

INTER OFFICE NOTE

From: Associate Dean(Academic)	To: Director

Date: 15th July 2019

1. Aptitude training is required to be conducted for final year B. Tech students (712 students, 14 sections) of all branches to prepare them for placements. During the last three years, the aptitude training was conducted by M/s Zenith India Ltd and M/s Aptitude Ladder. The student feedback on both the trainers was good so it is proposed to continue with these two trainers for the current session also. The proposals received from both are attached. M/s Zenith has quoted a price of Rs 900/- per student while M/s Aptitude Ladder has quoted Rs 800/- per student. During the three years both were paid Rs 750/- per student.
2. Total training is of 30 hours duration and starts tentatively from 5th August. Per week 4 periods (50 minutes each) will be assigned for each section & total 18 periods (9 weeks) will be required for completion.
3. It is recommended that both these trainers be appointed for the coming session also at a cost of Rs 750 /- per student. The total cost of the training for these 712 students would be Rs 6,30,120/- Rupees six lac thirty thousand one hundred twenty only including 18% GST{712x750= 5,34,000 + 96,120 = Rs 6,30,120}.

Department of Electrical and Electronics Engineering

From: HOD (EN)	To: All HODs

Date: 2nd May 2019

Now a day's almost all manufacturing industries are proceeding for automation to survive in globally competitive market to increase productivity and improve quality of products. This increases the demand of trained engineers in the field of industrial automation. In order to meet the demand of modern automated industries in terms of skilled technocrats and well trained engineers, **Department of Electrical and Electronics Engineering** has established a **Centre of Excellence on Industrial Automation (PLC/SCADA)** in **C Block Room no 307** in collaboration with **ABB India Ltd.**

The main aim of this Centre is to bridge the gap between the requirement of modern industries and knowledge of our graduates. This will also enhance the worth of institution in terms of providing summer training, increase in placement and interaction with industrialist.

In this regard the Centre is going to provide **4 week summer training on PLC/SCADA** as per details given below.

So you are requested to motivate the students to join **summer training program** to enhance their technical skill as well as placement opportunity.

Details of Training:

Duration: 4 Weeks

Course Contents: Attached

Course Fee: Rs 5000/- per student

Note:

- Rs 1500/- discount will be given in fee for the IMSEC students after attaining minimum 90% attendance during training.
- Final year project assistance will be provided to the students after successfully completion of summer training.

Department of Electrical and Electronics Engineering

From: HOD (EN)	To: All HODs

Date: 03rd Sept 2019

Now a day's almost all manufacturing industries are proceeding for automation to survive in globally competitive market to increase productivity and improve quality of products. This increases the demand of trained engineers in the field of industrial automation. In order to meet the demand of modern automated industries in terms of skilled technocrats and well trained engineers, **Department of Electrical and Electronics Engineering** has established a **Centre of Excellence, ABB Industrial Automation Centre** in C Block Room no 307.

The main aim of this Centre is to bridge the gap between the requirements of modern industries and knowledge of our graduates. This will also enhance the worth of institution in terms of providing summer training, increase in placement and interaction with industrialist. In this regard the Centre is going to organize **4 months advanced industrial automation** training from 12th September 2019. So you are requested to motivate the students to join the program and get the benefits.

Details of Training:

Duration: 4 Months

Starting date: 12th September 2019

Course Fee: Rs 20000/- per student

- Modules of training are attached with mail.

- For more details regarding registration contact to Mr Yashpal Singh, Rhythm Automation Control Pvt. Ltd. (Mobile: 9958444794) & Mr. O. P. Yadav, Assistant Professor, EN Deptt (Mobile 7557349136).

Note:

- 30% discount will be given in fee for the IMSEC students after attaining minimum 90% attendance of training.
- Students will be provided advance industrial automation training certificate by ABB.
- Final year project assistance will be provided to the students after successfully completion of training.
- **Job Assistance:** 100% job assistance will be provided to students securing 90% attendance during training. In this regard, minimum 5 interview assistance will be provided to each student in renowned company.

Subject: **Request for approval of conducting "Hands on Summer Training in Molecular Biology" tentatively scheduled from 4th -13th June, 2018**

Dear Sir,

We are planning to conduct a summer training program for third year and second students of B.Tech Biotechnology in field of "Molecular Biology" in the month of June after completion of University practical exams.

Our training program would be of **10 days (4th June-13th June'2018)** covering basic and advanced tools/techniques of Molecular Biology. There would be theory sessions followed by practical (wet lab) and result analysis sessions. The **Fees to be charged for this training would be Rs. 3000** (Three thousand only) **per student**. Total 19 students from B. Tech (Biotechnology) third year and second year are participating in this training program (list of students attached).

We seek your permission to conduct the above said training and submit the total fee amount of Rs. 57,000/- (Rs. 3000x19 students) to the college through accounts section. Also request for permission to proceed for chemical purchasing required for conduction of summer training (the comparative quotation for chemicals/kits/plasticware is attached). The estimated cost of chemical and plasticware, stationary and miscellaneous items to be used in the training program would be around Rs. 49000/-.

Following faculty members would be involved in this program-

- **Dr. Indu Bhatt** — Molecular Biology
- **Dr. Meghna Singh** — Molecular Biology

Thanking you,

Best Regards,

(Rashmi Chandra)

Please provide your feedback on Hands-on Training in Molecular Biology conducted from 04th June, 2018 to 13th June, 2018

1. Student Name..... Himanshi Singh .....
2. Theoretical Exposure of technique (Tick):- Bad Good ✓ Excellent

Comment:..... the reasons why we opt dif techniques of tech. is clear and what will be the output of it is clear ✓

3. Practical Exposure of technique (Tick):- Bad Good Excellent ✓

Comment:- we handeled many things independently that made us perfect.

4. Best thing you learned:- running SDS-PAGE and making of different chemicals.
5. Evaluate the quality of training:-

the training is excellent & has made us independent.

6. What could have been done better?

Everything is perfect as its place.

7. Whether you would be able to handle learnt techniques independently now? (Tick):- Yes ✓ No

Please provide your feedback on Hands-on Training in Molecular Biology conducted from 04th June, 2018 to 13th June, 2018

1. Student Name: Ambika Ojha
2. Theoretical Exposure of technique (Tick):- Bad Good Excellent ✓

Comment: All the principles and theories of the experiments were explained properly.

3. Practical Exposure of technique (Tick):- Bad Good ✓ Excellent

Comment:- The practical approach was also good.

4. Best thing you learned:- To handle instruments on my own.
5. Evaluate the quality of training:-

It was overall very well.

6. What could have been done better?

We could have taken a little more time for individual experiments.

7. Whether you would be able to handle learnt techniques independently now? (Tick):- Yes ✓ No

IMS EGINEERING COLLEGE

INTER OFFICE NOTE

From: Dean(Academic)	To: Director

Date: 25th July 2018

1. Aptitude training is required to be conducted for final year B. Tech students of all branches to prepare them for placements. During this session (2018-19), the total strength of B Tech students is.828. During the last two years, the aptitude training was conducted by M/s Zenith India Ltd and M/s Aptitude Ladder. The student feedback on both the trainers was good and students didn't face any problem in clearing the aptitude tests. It is proposed to continue with these two trainers for the current session also.
2. Proposals were asked from both these trainers for conducting 30 Hrs training for each student. The proposals received from both are placed opposite. M/s Zenith has quoted a price of Rs 900/- per student while M/s Aptitude Ladder has quoted Rs 1000/- per student. During the last two years both were paid Rs 750/- per student.
3. It is recommended that both these trainers be appointed for the coming session also at a cost of Rs ~~850~~/- per student.

Department of Electrical and Electronics Engineering

From: HOD (EN)	To: All HODs

Date: 20th April 2018

Now a day's almost all manufacturing industries are proceeding for automation to survive in globally competitive market to increase productivity and improve quality of products. This increases the demand of trained engineers in the field of industrial automation. In order to meet the demand of modern automated industries in terms of skilled technocrats and well trained engineers, **Department of Electrical and Electronics Engineering** has established a **Centre of Excellence on Industrial Automation (PLC/SCADA)** in **C Block Room no 307** in collaboration with **ABB India Ltd.**

The main aim of this Centre is to bridge the gap between the requirement of modern industries and knowledge of our graduates. This will also enhance the worth of institution in terms of providing summer training, increase in placement and interaction with industrialist.

In this regard the Centre is going to provide **4 week summer training on PLC/SCADA** as per details given below.

So you are requested to motivate the students to join **summer training program** to enhance their technical skill as well as placement opportunity.

Details of Training:

Duration: 4 Weeks (in two sessions)

Course Contents: Attached

Course Fee: Rs 5000/- per student

Note:

- Rs 1500/- discount will be given in fee for the IMSEC students after attaining minimum 90% attendance during training.
- Final year project assistance will be provided to the students after successfully completion of summer training.

Dear Students,
I am pleased to announce that **IMS Engineering College** has opened "**Centre of Excellence - VLSI Design & Embedded Systems"** in ECE Department in collaboration with **Aujus Technology Pvt. Ltd. (Noida)** to enhance the skill-set of ECE students and thereby employability in Core Electronics domain. For the Centre of Excellence, **we have established CAD lab in B-Block, first floor.** You can use your personal laptop as well as CAD lab computers. Classes will be held in IMSEC CAD Lab as well as Aujus Technology/Pine Academy in Govindpuram.
The course content for "**foundation course in VLSI Design"** is attached herewith. You are advised to go through the course content. Course will begin from 01.Feb.2018. The course fee is 10,000/- Rupees (including taxes). 6 week Summer industrial training is part of this course. Students undergoing these courses can make a career in the VLSI field which is highly rewarding.

I am confident that if you join this course, it will prove to be a strong foundation for your career in VLSI Design. Interested students may give their names to me by email or whatsapp as soon as possible.

Have a good day.

Respected Sir,

Following students have completed the foundation course in VLSI Design (from February 2019 to July 2019) successfully.

S. No.	Name of the student	Roll Number
1	Prashant Singh	1614331061
2	Prabhavi Mishra	1614331058
3	Riya Agarwal	1614331074
4	Tanya Srivastava	1614331094

Course Outcome:

1. Students learned schematic based designing of Digital circuits using Xilinx ISE/Vivado development tool.
2. Students learned Verilog programming and implemented the logic using Xilinx ISE/ Vivado development tool.
3. Students implemented various VLSI design projects in schematic and Verilog programming and demonstrated on FPGA boards.

Introduction

- Need of Graphical Language
- Importance Machine Drawing
- Tools (from Instruments to Current Softwares)

Projections

- Designation
- Relative position of views
- Examples

Classification of Machine Drawings (with examples)

- Assembly Drawing
- Part Drawing
- Detailed Drawing

➢ Auto-CAD (36 Hrs)

- Advantages of Computer Aided Drafting and Design
- Introduction to Auto-CAD (File, limit, page setup, dimension, block, layers, Properties etc)
- Introduction to drafting commands
- Drafting commands practice
- Introduction to editing commands
- Editing commands practice
- Practice of 2D drawing with Examples & Print Setup
- Isometric drawing & practice
- Introduction to 3D commands in Auto-CAD

The Director,
IMS Engineering College,
Ghaziabad

Subject: **Request for approval of conducting "Hands on Summer Training in Molecular Biology" tentatively scheduled from 2nd -12th June, 2017**

Dear Sir,

We are planning to conduct a summer training program for third year students of B.Tech Biotechnology in field of "Molecular Biology" in the month of June after completion of University exams (date sheet attached).

Our training program would be of 11 days (2nd June-12th June, 2017) covering basic and advanced tools/techniques of Molecular Biology. There would be theory sessions followed by practical (wet lab) and result analysis sessions. The **Fees to be charged for this training would** be Rs. 3000 (Three thousand only) **per student**. The estimated total amount to be collected from the students is **Rs. 60000/-**(3000 X 20 =Rs. 60000). The approximate expenditure for smooth conduction of this training would be **Rs. 44,500/-**(list attached).

We are collecting the above said fees in cash from the students for their participation in the training program and will submit the total amount to the college through accounts section. Following faculty members would be involved in this program-

- Dr. Abhimanyu Kr Jha — Molecular Biology
- Dr. Indu Bhatt — Molecular Biology
- Dr. Meghna Singh — Molecular Biology

Thanking you.

Best Regards.

Minutes of Meeting

A departmental meeting was held in the HOD's office on 27th October, 2016 at 12:20 p.m. The meeting was attended by the following faculty members:

1. *Dr. Abhimanyu Kumar Jha*
2. *Dr. SavitaChaurasia*
3. *Dr. Narendra Kumar*
4. *Ms. Rashmi Chandra*
5. *Ms. Shomini Parashar*
6. *Mr. Santosh Kumar Mishra*
7. *Dr. Vivek Kumar*
8. *Dr. Meghna Singh*
9. *Dr. Indu Bhatt*

Minutes:
The following points were discussed with the faculty members-

1. HOD advised the faculty members to reconnect with the company HRs with Diwali wishes in order to resume the relations for the placement of fourth year students.
2. Moreover several new companies need to be contacted and the ones which gave no productive results should be omitted from the list. A new list was prepared and the companies would be allotted to the faculty members for further action.
3. It was also instructed that the Admission strategies are confidential matters thus such matters should not be discussed with anybody.
4. At least 5 assignments should be checked and uploaded on the portal.
5. Practical files and all pending work should be completed before the college reopens for students.
6. Winter training was planned in the month of January and the concerned faculty members were asked to prepare the list of proposed experiments.

The meeting ended with vote of thanks as all the points were discussed.

INTER OFFICE NOTE

From: Dean(Academic)	To: Director

Date: 09 June 2017

1. Aptitude training is required to be conducted for final year B Tech students of all branches to help in their placements. There would be approximately 832 students. During the last session, this training was conducted by M/S Zenith India and M/S Aptitude Ladder. The student feedback for both was good and students didn't face problems in clearing these tests. In the coming session, it is proposed to continue with these two trainers only.

2. The proposals were asked from both for this year (placed opposite). M/S zenith has quoted a charge of Rs 1200/- per student while Aptitude ladder has quoted a charge of Rs 900/- per student for module of 30 Hrs. Last year both the trainers were paid Rs 750/- per student.

3. It is recommended that both the trainers be appointed for the coming session also at a cost of Rs 800/- (Rupees eight hundred only) per student.

IMS Engineering College, Ghaziabad

Department of Electronics and Communication Engineering

Date: 12-04-2017

Summer Training in "Circuit Simulation and PCB Design Technology"

Department of Electronics & Communication Engineering is setting up a center of excellence in PCB designing and fabrication. The department will provide summer training for four weeks to the registered students at IMSEC campus. The registration will be on first come first serve basis as the seats are limited. The interested students can register themselves to the undersigned faculty by 20th April-2017 with a nominal registration fees of Rs. 1500 (Rs.500 would be refunded if attendance and performance criteria fulfilled successfully). Training certificates will be provided on successful completion of the training by RS Components and Control limited (A firm of RS Component of UK).

The outline of the training is as follows:

1. Component identification and data sheet interpretation followed by quiz
2. Circuit simulation using ORCAD software
3. PCB Designing and layout using Design Spark software
4. Making projects
5. Training report writing

Afterwards students would be given a project which they will complete at home and would bring at the commencement of semester for evaluation. Prizes will be given to winners.

IMS ENGINEERING COLLEGE

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

INDUSTRIAL TRAINING FOR THIRD YEAR ECE STUDENTS

IN TI CENTRE OF EXCELLENCE

Department of Electronics and Communication would organize six weeks Industrial Training (as part of curriculum for 3rd year ECE students) in the TI centre of excellence set up in the college for a batch of 30 students. The registration will be on first come first serve basis. Certificates would be given by Texas Instruments on fulfilling attendance (More than 90 %) and performance criteria.

1. Proposed Syllabus

   a. Phase 1: Training on ASLK for circuit designing and implementation (15 Circuits as per TI lab syllabus)
   b. Phase 2: Training on MSP-430 Microcontroller, TIVA Microcontrollers, Introduction to certain programs using various booster packs (Educational Booster Pack, Capacitive Touch Booster Pack, Wi-Fi Booster Pack and Radio Frequency Booster Pack)
   c. Phase 3: Introduction to IOT (Internet of Things)
   d. Phase 4: Making of Live Projects
   e. Phase 5: Training Report writing and Presentation.

2. Registration fee Rs. 2000 (Rupees Rs.1000 would be refunded if attendance and performance criteria fulfilled successfully)

3. Registration can be done by depositing Rs. 2000 (through Prof. Jyoti Guglani/ Prof. Abhishek Sharma)

Subject: - Summer training on Robotics

01.06.18

Respected Sir,

This is to inform you that we are planning to conduct a summer training on Robotics under Centre of Robotics and Automation for 2nd year and 3rd year students. This training program to be held from 04/06/18 to 20/07/18. And the registration fee is 250 Rs./week. Detail of the training is attached for your kind information.

Kindly allow us to follow this training program.

We will be highly thankful to you.

Sincerely

Ms. Mubina Shekh

WORKSHOP ON "INTRODUCTION TO ROBOTICS"

23/09/2017- 16/11/2017

FEEDBACK FORM

Learner's Name- Abhishek Diwak Branch/Year- EN-I / 2nd year

Please complete the evaluation for workshop on "INTRODUCTION TO ROBOTICS". Your feedback is valuable for us and is appreciated.

Criteria	Excellent (4)	Very Good (3)	Good (2)	Average (1)
Workshop was relevant to my need	✓			
Material Provided were helpful		✓		
Length of workshop was sufficient		✓		
Questions were encouraged	✓			
The presenter's presentation was effective	✓			

1. What did you enjoy most during the workshop?

I got to know many things which I was unaware of. This workshop enhanced my knowledge and I could get to know and learn various robotics machines and learn about their working.

2. How will you implement this (workshop) into your academics?

I will surely remember all the phenomena and applications of robotics taught to me by my dearest teachers. The basic things I learned will always remain in my ~~mind~~ mind and I will look upon things taught to me.

Suggestions:

I would like to suggest ~~that~~ that there was lack of time and more classes should have been taken so that we could get deep knowledge and also ~~I would like our teachers should be more~~

I would like to gain more practical knowledge of robotics

Thank you for taking the time to help us improve our training.

IMS ENGINEERING COLLEGE, GHAZIABAD

Department of Biotechnology

Date: 28/05/2016

The Department of Biotechnology is organizing a summer training program entitled **'Hands-on training in Molecular Biology'** from **07th June – 17th June 2016**. This training program is being carried out to develop the technical acumen of the students in the broad field of Molecular Biology, which forms the foundation of Modern Biotechnology.

Main highlights of the training program:

1- **DNA isolation from biopsy and blood.**
2- **Cloning**
3- **PCR & MS-PCR**
4- **RAPD Analysis**

Training fee :- 3000/- per student.

Timings :– 09:00AM – 04:00PM.

Interested students can submit the registration fee to Dr. Indu Bhatt / Dr. Meghna Singh.

1. A meeting was held on 12 July 2016 to finalize the aptitude trainers for the session 2016-17. Four trainers were called for discussions which were attended by all HOD (CSE, ECE, EN, IT, ME & BT), Dean (A) & Associate Dean (A). After discussions with all the trainers, the committee unanimously reached the following conclusions:

i)Mr Jitendra Sarin who had conducted this training in session 2015-16 also should continue on the basis of his last year's performance which was found satisfactory by the students and success rate of 58.57%.

ii) Mr Love Jain who had trained our students in session 2015-16 also should be replaced as his last year's performance was not satisfactory and success rate was low (40.7%).

iii) Mr Sunil Palia of M/s **Zenith** is recommended to be appointed as second trainer because of his professional approach and good training materials developed by them, readiness to conduct extra mocks test without additional charges and providing well trained, dedicated and committed faculty. Also their feedback from colleges like ABES, MIET, NIET etc where they had been providing training in previous years was very positive.

iv) Mr Nikhil Bansal of Illuminating Minds, though suitable is not recommended as he conducts training single handed in colleges of NCR and is not having sufficient faculty.

2. In session 2016-17, 612 students of B. Tech final year would be provided aptitude training. Aptitude training will be of 30 hour duration during weekdays and would be covered in one month. The details of proposals received from Zenith and of Mr Jatinder Sarin are flagged. Both have agreed to provide this training at a cost of Rs 750 per student which was paid in the earlier session 2015-16.

3. Forwarded for your kind approval.

Department of Electrical and Electronics Engineering

From: HOD (EN)	To: All HODs

Date: 5th May 2016

Now a day's almost all manufacturing industries are proceeding for automation to survive in globally competitive market to increase productivity and improve quality of products. This increases the demand of trained engineers in the field of industrial automation. In order to meet the demand of modern automated industries in terms of skilled technocrats and well trained engineers, **Department of Electrical and Electronics Engineering** has established a **Centre of Excellence on Industrial Automation (PLC/SCADA)** in **C Block Room no 307** in collaboration with **ABB India Ltd**.

The main aim of this Centre is to bridge the gap between the requirement of modern industries and knowledge of our graduates. This will also enhance the worth of institution in terms of providing summer training, increase in placement and interaction with industrialist.

In this regard the Centre is going to provide **4 week summer training on PLC/SCADA** as per details given below.

So you are requested to motivate the students to join **summer training program** to enhance their technical skill as well as placement opportunity.

Details of Training:

Duration: 4 Weeks (in two sessions)

Session I: 7th June to 1st July 2016

Session II: 4th July to 29th July 2016

Course Contents: Attached

Course Fee: Rs 5000/- per student

Note:

- Rs 1500/- discount will be given in fee for the IMSEC students after attaining minimum 90% attendance during training.
- Students will be provided industrial summer training certificate as well as PLC/SCADA training certificate by ABB.
- Final year project assistance will be provided to the students after successfully completion of summer training.

Department of Electrical and Electronics Engineering

From: HOD (EN)	To: All HODs

Date: 28th Sept 2016

Now a day's almost all manufacturing industries are proceeding for automation to survive in globally competitive market to increase productivity and improve quality of products. This increases the demand of trained engineers in the field of industrial automation. In order to meet the demand of modern automated industries in terms of skilled technocrats and well trained engineers, **Department of Electrical and Electronics Engineering** has established a **Centre of Excellence, ABB Industrial Automation Centre** in C Block Room no 307.

The main aim of this Centre is to bridge the gap between the requirements of modern industries and knowledge of our graduates. This will also enhance the worth of institution in terms of providing summer training, increase in placement and interaction with industrialist. In this regard the Centre is going to organize **4 months advanced industrial automation** training from 3rd October 2016. So you are requested to motivate the students to join the program and get the benefits.

Details of Training:

Duration: 4 Months

Starting date: 3rd October 2016

Course Fee: Rs 20000/- per student

- Modules of training are attached with mail.

- For more details regarding registration contact to Mr Yashpal Singh, Rhythm Automation Control Pvt. Ltd. (Mobile: 9958444794) & Mr. O. P. Yadav, Assistant Professor, EN Deptt (Mobile 7557349136).

Note:

- 30% discount will be given in fee for the IMSEC students after attaining minimum 90% attendance of training.
- Students will be provided advance industrial automation training certificate by ABB.
- Final year project assistance will be provided to the students after successfully completion of training.
- **Job Assistance:** 100% job assistance will be provided to students securing 90% attendance during training. In this regard, minimum 5 interview assistance will be provided to each student in renowned company.

The Director,
IMS Engineering College,
Ghaziabad

Subject: Approval of students participating in Hands on Summer Training for B. Tech Biotechnology students from 17th July-27th July'2015

Dear Sir,

As discussed we are conducting a summer training program for second and third year students of B.Tech Biotechnology in field of "Bioinformatics and Molecular Biology". For hands on summer training to be conducted this year, we have included a few sessions in Bioinformatics also along with our regular Molecular Biology experiments. Bioinformatics is an emerging area in biological sciences and there is dearth of good training in this field.

Our training program would be of **11 days (17th July-27th July'2015)** covering basic and advanced tools/techniques of Bioinformatics/Molecular Biology. There would be theory sessions followed by practical (wet/dry lab) and result analysis sessions. Besides this, **mini projects would be assigned to the participants**, which they may complete in the running session under faculty supervision. **Fees charged would be Rs. 3000** (Three thousand only) for this program. As per your discussion earlier, this training program would be considered **at par with Industrial training required by B. Tech third year students** for UPTU curriculum.

Also, we request you to **kindly grant permission to hosteller students to be allowed to stay in their respective hostels** during the aforesaid training period.

Following faculty members would be involved in this program-

• **Ms. Shomini Parashar**	Bioinformatics
• **Dr. Abhimanyu Kr Jha**	Molecular Biology
• **Dr. Indu Bhatt**	Molecular Biology
• **Dr. Meghna Singh**	Bioinformatics and Molecular Biology
• **Mr. Priya Ranjan Kr**	Bioinformatics

Also, find enclosed the list of students opting for training. We request your permission to submit the **total collected fee amount of Rs. 49500/-**(Forty nine thousand Five hundred only) to the college account through the accounts section.

Thanking you,

Best Regards,

15/7/15

Proposed Short Term Training On

Solar Photovoltaic/Thermal Training for Students

Objective:

This program aims at training people in installation, operation and maintenance of solar PV as well as Solar Thermal systems. The program is useful for master trainers, technicians and College students as well as technicians working in the field.

Course Contents:

Proposed Classroom Topics:

- Introduction to Renewable energy and Photovoltaics (PV)
  - Solar Radiation Basics and Measurement
  - Solar Cells, Modules and Arrays
  - Basics of Electricity
- Solar Thermal Technology
  - Principles, Technology, utilization and scope
  - Heating and cooling load calculation
  - Heat storing systems
  - Phase changing materials
  - Scope in India for solar thermal
  - Plant operation, maintenance and safety
- Solar PV Systems Design and Components Selection
  - DC to AC and AC to DC converter
  - Variable frequency drive (VFD)
  - Balance of Systems Components
  - Energy storage system
  - Different type of batteries
  - Plant Safety, Tools and Assembly
  - Load Measurement at normal and peak hours
  - Plant Installation and Testing
  - Plant Operation and Maintenance
  - Double metering system in roof top solar system

Proposed Laboratory Experiments:

- Solar Radiation Measurement
- Measurement of PV module parameters

- Series and Parallel connections of modules
- Solar LED Light
- Solar DC Fan
- Solar water heater
- Solar hybrid refrigeration system
- Solar cooker
- Solar room air heater
- Solar Lantern and charging station
- Inverter, Rectifier and Transformer
- Measurement of Battery, Charge Controller and Inverter parameters
- Testing of Standalone PV system

Proposed Field Sessions:

- PV Panel Assembly
- PV String Assembly
- Grid connected PV Plant Assembly and Testing
- PV plant Operation and Maintenance checks
- Solar PV water pump site visit

Schedule and Venue:

The training course is scheduled on **6 June-1 July 2016** (10AM to 4PM) at CARE Lab Mechanical Engineering Department, IMS Engineering College, and Ghaziabad.

Hands on Mini Projects:

After completion of above said tasks students must submit a hands on projects/products based on either solar PV or solar thermal for the concept verifications as the part of the training.
