IMS Engineering College, Ghaziabad

Department of Computer Science and Engineering

VISION AND MISSION OF INSTITUTE

Institute Vision

Our vision is to impart vibrant, innovative and global education to make IMS the world leader in terms of excellence of education, research and to serve the nation in the 21st century.

Institute Mission

- To develop IMSEC as a center of Excellence in Technical and Management education.*
- To inculcate in its students, the qualities of Leadership, Professionalism, Executive competence and corporate understanding.*
- To imbibe and enhance Human Values, Ethics and Morals in our students.*
- To transform students into Globally Competitive professionals.*

IMS Engineering College, Ghaziabad

Department of Computer Science and Engineering

VISION AND MISSION OF DEPARTMENT

Department Vision

To be recognized as a Centre of Excellence imparting quality education and creating new opportunities for students to meet the challenges of technological development in Computer Science & Engineering.

Department Mission

- To promote technical proficiency by adopting effective teaching learning processes.*
- To provide environment & opportunity for students to bring out their inherent talents for all round development.*
- To promote latest technologies in Computer Science & Engineering and across disciplines in order to serve the needs of Industry, Government, Society and the scientific community.*
- To educate students to be Successful, Ethical and Effective problem-solvers and Life-Long learners who will contribute positively to the society.*

IMS Engineering College, Ghaziabad

Department of Computer Science and Engineering

EDUCATIONAL OBJECTIVES OF DEPARTMENT

- *Graduates of the program will be able to apply fundamental principles of engineering in problem solving and understand the role of computing in multiple disciplines.*
- *Graduates will learn to apply various computational techniques & tools for developing solutions & projects in real world.*
- *Be employed as computer science professionals beyond entry-level positions or be making satisfactory progress in graduate programs.*
- *Demonstrate that they can function, communicate, collaborate and continue to learn effectively as ethically and socially responsible computer science professionals.*

IMS Engineering College, Ghaziabad

Department of Computer Science and Engineering

PROGRAM SPECIFIC OUTCOME

- *Foundation of Computer System: Ability to understand the principles and working of computer systems.*
- *Foundations of Software development: Possess professional skills and knowledge of software design process. Familiarity and practical competence with a broad range of programming language and open source platforms.*
- *Foundation of mathematical concepts: Ability to apply mathematical methodologies to solve computation task, model real world problem using appropriate data structure and suitable algorithm.*
- *Applications of Computing and Research Ability: Ability to use knowledge in various domains to identify research gaps and hence to provide solution to new ideas and innovations.*

IMS Engineering College, Ghaziabad

Department of Computer Science and Engineering

PROGRAM OUTCOME

Engineering Graduates will be able to:

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
- **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

IMS Engineering College, Ghaziabad

Department of Computer Science and Engineering

PROGRAM OUTCOME

Engineering Graduates will be able to:

- **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

MESSAGE FROM THE DIRECTOR

LOOK FOR A SILVER LINING EVEN IN THE DARKEST CLOUDS

God has also created the universe with sharp contrasts. He gave us night but gave us day too. He created darkness but with light, odor but with fragrance, pain but with pleasure. The year 2020 also came to us painted in black and white. It made many good souls disappear from the Earth, stole away many jobs and got us confined to our homes but at the same time, 2020 has taught us some best lessons of life which we could not have learnt otherwise. It taught us the value of life, relations and money. It taught us that good health is above everything.

It gave us the pleasure of spending quality time with our family members and friends. It made us learn how life can go on with the least expenses. It made us more spiritual and granted us opportunities to practice meditation and Yoga. The summary is that each coin has two sides and we too have two choices in life – one to resist the change and perish and the second one to accept the change and move on.

The right attitude and the right perception connect us to good things and good results in life. Do not compare yourself with others and do not get disturbed with their criticism. Just keep doing well with the best of your abilities. The American bishop, author and film-maker

T.D. Jakes has rightly said – “When you are a giraffe and you receive criticism from turtles, they are only reporting their view from the level they are on”. We should neither try to please people nor should have the expectations to get pleased by them. The Gita says – ‘Work is worship’ and the

कुछ किये बिना ही जय जय कार नहीं होती,
कोशिश करने वालों की कभी हार नहीं होती।

Prabalk.Chakravorty
Director

MESSAGE FROM THE HEAD OF DEPARTMENT

CS

The Department of Computer Science is dedicated to ensure the best career for its students. The excellent infrastructure and the teaching faculty ensure the quality education by adopting the techniques like interaction with the students, parents and staff. We firmly encourage innovation in teaching as well in research. Careers in computer science remain in very high demand and offer not only the comforts of a high-paying job, but also the intellectual challenges of a creative and productive profession. Our faculty and students are constantly striving to excel and to advance the state of the art in Computer Science

Prof. (Dr.) Deepak Gambhir

HOD-CS

MESSAGE FROM THE HEAD OF DEPARTMENT

CSD

The Department of Computer Science and Design was established in the session 2021-22 with an objective of imparting quality education in the field of Computer Science and Design . It provides an open, friendly, diverse, and collaborative atmosphere to pursue computer science and design & related studies. Department has highly qualified & research oriented faculty. The department has state of the art infrastructure and computing equipments supported by high speed Ethernet and Wi-Fi networks. Department focuses on hands-on skill development of its students as per the requirements of the IT Industry. Department aims at providing competitive environment & equal opportunity for students to bring out their inherent talents for all round development

Prof. (Dr.) Suneet Shukla

HOD-CSD

MESSAGE FROM **EDITORIAL BOARD**

It is with immense happiness that we place in the hands of our readers this edition of 'THE BYTE'. This magazine is a platform that exhibits the literary skills, innovative ideas of teachers and students. It was crazy when we started it but when it all come together, we were more than happy.

We express our considerable appreciation to all the authors of the articles in this magazine. These contributions have required a generous amount of time and effort. It is this willingness to share knowledge, concerns and special insights with fellow beings that has made this magazine possible. We hope you enjoy reading these articles, as seen through the IMS student's journalistic eye.

*Thank
you*

TECHNICAL ARTICLE

AI in Medical World

As we know Artificial Intelligence is already in demand in every sector of society. Recently, AI has brought a huge revolution in the medical field.

Researchers of Northwestern University have developed a new AI platform Called DeepCOVID-XR, that detects Covid-19 by analyzing X-ray images of the lungs. The machine learning algorithm was able to spot Covid-19 in X-rays about 10 times faster and 1-6% more accurately than a team of specialized thoracic radiologists.

Researchers think that this AI system can be used in hospitals to detect Covid-19 faster and earlier so that the patient can be isolated in early stages. In order to create this algorithm the researchers used 17,002 chest X-ray images. Of those images, 5,445 came from COVID-19-positive patients from sites across the Northwestern Memorial Healthcare System. Where the radiologists took approximately 2.5 hours to 3.5 hours to examine a set of images, the A.I. system took about 18 minutes. The radiologist's accuracy ranged from 76-81%, whereas, DeepCOVID-XR performed slightly better at 82% accuracy.

Moreover, another AI designed by Duke University was able to to interpret a combination of retinal images and identify Alzheimer's disease in patients. This can help patients in early detection, precise diagnostic, earlier trials etc.

The university team initially identified changes in retinal blood vessel density that correlated with changes in cognition and found out that decreased density of the capillary network around the center of the macula is an indication of Alzheimer's disease. Using this knowledge the team trained a ML model known as Convolutional Neural Network(CNN) using four types of retinal scans as inputs. Scans from 159 study participants were used to build the CNN in which 123 patients were cognitively healthy, and 36 patients were known to have Alzheimer's disease.

FLUTTER

By Ayush Kumar Srivastava

I worked a bit in Android development using Java. After spending about a month working with, I decided to move on. I just couldn't get into it. But recently, I learned about Flutter and decided to give mobile app development another shot. I instantly fell in love with it as it made developing multi-platform apps a ton of fun. Since learning about it, I have created an app using it. Flutter seems to be a very promising step forward.

As Flutter is multi-platform it help us to create android and iOS app with single code, Before flutter we have to use different platforms to create apps for android and iOS.

Flutter uses the Google-developed Dart language. If you have used Java before, you will be familiar with the syntax of Dart as they are quite similar. Besides the syntax, Dart is a fairly different language. This is something you will most likely be using throughout all of your Flutter applications if you are doing IO or other time-consuming operations such as querying a database. Without asynchronous operations, any time-consuming operations will cause the program to freeze up until they complete. To prevent this, Dart provides us with the `sync` and `await` keywords which allow our program to continue execution while waiting for these longer operations to complete.

Write Once, Run on Android and iOS

Developing mobile apps can take a lot of time considering you need to use a different codebase for Android and iOS. That is unless you use an SDK like Flutter, where you have a single codebase that allows you to build your app for both operating systems. Not only that, but you can run them completely natively. This means things such as scrolling and navigation, to name a few, act just like they should for the OS being used.

Conclusion

With Flutter, the possibilities are practically endless, so even super extensive apps can be created with ease. If you develop mobile apps and have yet to give Flutter a try, I highly recommend you do as I'm sure you'll fall in love with it as well. After using Flutter for quite a few weeks, I think it is safe to say that it is the future of mobile development.

LITERARY ARTICLE

THE PATRIACHAL PANDEMIC

As a movement, feminism emerged in response to the years of male suppression and domination that women have endured both domestically and in their workspace. The feminist approach emphasizes issues such as gender politics, equal opportunities, equal representation, sexual objectification and violence, gender roles, wage gap and all other forms of oppression.

In the beginning, feminism was all about demanding equal rights and representation, and dealt with the upward struggle to achieve Universal Adult Suffrage. Issues like marriage, contracts, property and reproductive rights were also widely discussed and debated. Towards the end of the 60s, however, feminism had taken a sharper turn. They emphasized a lot on the social, political and economic injustices that women had faced so far and demanded retribution. They demanded real political representation, employment opportunities and a proper division of labour.

The third wave of feminism since the 90s dealt with defining and breaking the barriers of the so-called “roles” that women had to play both inside and outside their homes. They also focused on the issues of the middle-class women whose social conditioning ensured that they had one foot forward in progress, but were held back by the regressive attitudes of their upbringings.

LITERARY ARTICLE

My journey to the Uttrakhand

By Kunal Nagarkoti

I find no kind of travel as poetic as hill drives. Maybe I'm too much of a romantic, but the ghosts of Frost and Wordsworth seem to be humming their most emphatic verses in my ear every time I traverse curves and bends. My trip to Lansdowne, a quiet cantonment town in the state of Uttarakhand, was no different. A brook flowed by. Many roads diverged in the woods.

However, the poetry of my journey may have turned into gibberish had my vehicle, the vessel that sailed us through seamlessly, been a disappointment- Maruti Suzuki's ErtigaZdi+. The Multi-Utility Vehicle (MUV) was a matter of three 'Fs' for me-features, fluidity and family-friendliness.

Lansdowne is a 250km drive from New Delhi. But the climb comes only in the last 39km, from Kotdwar. I must mention that we were three young adrenaline-junkies hitting the highway-so, we were hoping for smooth roads, no traffic and enough opportunities to hit the pedal. But, on the contrary, we had to face many traffic challenges-the excruciating Delhi traffic, the highway roads and the mountain terrain.

Our Ertiga was the Zdi+ variant, diesel, and equipped with a certain DDiS 200 Smart Hybrid (SHVS) feature, which came in handy in dealing with the congestion.

As we crawled our way out of the cluttered Delhi-UP border, Vishal (who was driving at that time) noticed something peculiar. It seemed like whenever we came to a halt, the engine would stop. But upon accelerating, the car would pick up as if nothing had happened. Seemingly, this is the 'Idle Stop Start' feature, which is meant to save fuel, but also ended up leaving us quite impressed.

The traffic soon cleared and NH58 had us surging across the Meerut bypass. Eucalyptus and poplar trees surrounded the road, the sun played hide-and-seek behind them, there was interplay of light and shadow-and this was just the plains. The sun was driving slowly, the Ertiga's subtle-blue frame listenening beneath it, and before we knew it, we had hit the hills.

Here is where the car's fluidity shone through. Initially we were shifting gears, adjusting speed and trying to figure out the roads. But some 20km in, and the car was zooming as if android-driven. The automatic variant, that is, the Maruti Suzuki ErtigaVXi, ensures an even smoother drive up the hills, since you no longer need to do the whole 'first-second-third-repeat' exercise with the gear.

Trust the Uttarakhand hills to leave you both confused thanks to the convulated routes, and gaping in awe thanks to the beauty. The Ganges emerges from here-a brief glance at the river gushing through the mountains and Tennyson's Brook's famous repitition, "For men may come and men may go, but I go on forever" began echoing in my head. The oaks and conifers, abundant and lush because of the recently-concluded monsoons, helped complete the painting in my head.

But a hill drive requires power and careful maneuvering and this route was no exception. However, we were lucky that the SHVS's 'Torque Assist Function' and 'Break Energy Regeneration' sub-features helped facilitate engine performance and acceleration. They also gave the car quite a splendid pick up-not that we missed a single opportunity to test that out.

Once we reached Lansdowne, we were surprised to see that a town could be so silent. We gently drove past its many cantonment buildings, smooth roads and marketplace, and nowhere did we find the bustle that the plains are infamous for. Named after a viceroy, Lord Lansdowne, the place has retained its British heritage. Immaculately preserved and the regiment centre of the famed Garhwal Rifles infantry regiment, it's as charming as the hills surrounding it, which are covered by mist mostly, but kind enough to provide a vantage point for snow peak-spotting near St. Mary's Church. Here we braved the Sub-5°C cold and observed a lovely sunrise the next morning.

We stayed at the heritage Fairydale Resort Lansdowne, a 104-year-old property owned by Pankaj Shah. The bungalow, surrounded by lush hills, made our stay happier.

We also spent a lot of time at 'Lansdowne Trip—Travel Cafe. A community project created to enable nearby villagers of the Garhwali community, the place is artistically decorated. Here, we exploited Ertiga's 'Smart Play Infotainment System', which includes everything from smartphone-connectivity and GPS tracking to a neat reverse-parking camera display. As we sat in the cafe enjoying the weather and the view, the music playing from our car provided a suitable soundtrack to our experience.

Here, we also met a local Garhwali family, whom we asked to accompany us for a drive. All comfortably slipped into the car. We drove around until we came across a clearing that required a bit of off-roading. For Ertiga, this was a breeze. Once we arrived, it felt as if we had just discovered a secret clearing, with a valley on one side and oak trees on the other.

On our way back, we took a wrong bend that had us heading a good 40km deeper into the hills towards Pauri. This meant that we had to rush back. If it wasn't for the comfortable seats and the many safety features the car has, be it the SRS airbags, the many sensors or ABS, we couldn't have afforded doing that.

The next morning, we visited the St. John's church and walked by the calm and clean Bhuttal Tal. By noon, it was our time to leave. I felt slightly melancholic, leaving the calm for Delhi's chaos. But staring at the Ertiga, I thought, why melancholy when we have a return journey to look forward to? The poem continues...

FACULTY ACHEIVEMENTS

- ♦ **Ms. Vinita Chauhan attended a FDP on Advanced Excel with Data Visualization from E&ICT Academy, IIT Kanpur (31st May 2021 to 5th June 2021 (1 week)).**
- ♦ **Dr. Avdhesh Gupta completed round-3 of AICTE-Preparation of Assessment items in AICTE Student learning Assessment Project (ASLAP) in June 2021.**
- ♦ **Dr. Sapna Juneja written a paper titled "Kernel Parameter Tuning to Tweak the Performance of Classifiers for Identification of Hear Diseases" for international journal of E-Health & Medical Communication.**
- ♦ **Vivek Jain attended FDP on Identification of Cyber Criminal Suspects using Data Analytical Techniques and R Studio Software sponsored by AICTE, 14-27 June 2021**
- ♦ **Megha Gupta attended a short term program on "Design of Soft Computing Based Machine Learning Models sponsored by AICTE, 7-12 June 21.**
- ♦
Ms. Vinita Chauhan attended a FDP MAY 2021 on Cyber Security from E&ICT Academy, IIT Kanpur (24 May 2021 to 29 June 2021 (1 week))
- ♦
Ghanshyam Yadav attended AICTE-ISTE Refresher Program on use of ICT in Engg. Education during 7/4/21 to 13/4/21
Ravi Sharma completed preparing for the Google Cloud Associate Cloud Engineer Exam from Coursera in June 2021.
- ♦ **Shaili Gupta completed course on Data Science Tool by IBM edX in June 2021.**
- ♦ **Shivani Agarwal attended FDP on ARTIFICIAL INTELLIGENCE AND NEURAL NETWORKS on 23-28 June 2021**
- ♦ **Dr. Avdhesh Gupta attended a programme on Course and Instruction Design for Effective Outcome Based Education organized by Internal Quality Assurance Cell, St.Xavier's Catholic College of Engineering and sponsored by NAAC on 10th, 11th, and 12th June 2021.**

FACULTY ACHEIVEMENTS

- **Dr. Chanchal Kumar (Assistant Professor, CSE) has awarded with Ph.D degree entitled "Secure Portfolio Optimization using Soft Computing Techniques" from Jamia Millia Islamia in May 2021.**
- **Dr. Sapna Juneja(HOD-CS) has filed and published an Indian Design Patent titled Mammograph-Breast Cancer Diagnostic Device under Indian Patent Office in August 2021.**
- **Dr. Avdhesh Gupta (HOD-CSE) has completed an Innovation Ambassador training (Advance Level) conducted by MoE's Innovation Cell & AICTE during 30th June-30th July 2021.**
- **Dr. Deepak Gambhir (HOD-CSD) has participated in 5 days FDP from 8th -12th July 2021 on "A Deep Drive in the Field of Automation: ML and IoT" organised by Instrumentation and Control Engineering Dept with R&D Cell, Bharati Vidypeeth's College of Engineering, New Delhi.**
- **Ms. Kirti Sonkar (Assistant Professor, CSE) has presented a research paper in International Conference on Secure Cyber Computing and Communications (ICSCCC 2021) conference held on 21-23rd May 2021 and organised by NIT Jalandhar. The paper is published in IEEE Xplore with title "Cancelable Iris Biometric: A Review".**
- **Ms. Tanu Gupta (Assistant Professor, CSE) has presented a research paper entitled "Learning Improved Class Vector for Multi-Class Question Type Classification" in International Conference on Integrated Intelligent Computing, Communication & Security (ICIIC 2021) held on 6-7th August 2021 and organised by SJB Institute of Technology, Bengaluru.**
- **Ms. Jyoti Guglani, Assistant Professor, has completed Innovation Ambassador Training conducted by MoE`s Innovation Cell & AICTE.**
- **Mr. Gaurav Vats, Assistant Professor, has completed one week online FDP on „Linux“ from 4th to 9th January 2021 organized by E & ICT Academy, IIT Kanpur.**
- **Mr. Ghanshyam Yadav, Assistant Professor, completed one week online FDP on „Essential for Emerging Technologies in research held from 4th to 9th January 2021 organized by ABES, Ghaziabad.**

FACULTY ACHEIVEMENTS

- ♦ **Ms. Jyoti Guglani written a paper titled 'DNN based continuous speech recognition system of Punjabi language on Kaldi toolkit' in International Journal of Speech Technology, Springer, vol. 24, pp 41-45, March 2021.**
- ♦ **Dr Avdhesh Gupta written a paper titled, „Prediction of COVID-19 confirmed, death, and cured cases in India using random forest model“ in Big Data Mining and Analytics, IEEE publisher, vol. 4, no. 2, pp. 116- 123, Jan 2021.**
- ♦ **Dr Avdhesh Gupta, HOD CSE, has completed Innovation Ambassador Training conducted by MoE`s Innovation Cell & AICTE.**
- ♦ **Mr. Nizam Uddin Khan, Associate Professor, has completed two days FDP on „Artificial Intelligence and Automation“ organized by Amity Institute of Information technology.**
- ♦ **Mr. Nizam Uddin Khan, Associate Professor, has completed the Project based Learning Bootcamp on Algorithms and Data Structure with Project Snake game with GUI organized by Scrollwell EduTech LLP w.e.f. February 15-18, 2021.**
- ♦ **Ms. Jyoti Guglani, Assistant Professor, has completed edX course on „Business Considerations for 5G, IoT and AI“ Course with 99%.**
- ♦ **Mr. Hakim Singh, Assistant Professor, has completed edX course on “Python Basic For Data Science”.**
- ♦ **Mr. Hakim Singh, Assistant Professor, has completed edX course on “AWS IoT: Developing and Deploying an Internet of things”.**
- ♦ **Mr. Hakim Singh, Associate Professor, has completed Five days FDP on „Linux“ organized by IIT Kanpur.**
- ♦ **Ms. Megha Gupta, Assistant Professor, has completed edX course on “AI for Everyone”.**
- ♦ **Ms. Rashmi Dubey, Associate Professor, has completed Five days FDP on „Machine Learning“ organized by IIT Kanpur**

Brief Note on Virtual National Conference National Conference on Recent Advancements in IT & Computing (NCRAITC-2021)

Date-26th June 2021

Time- 10 am – 3:30 pm

A Virtual National Conference on Recent Advancements in IT & Computing (NCRAITC-2021), was jointly organized by the Department of Information Technology, Department of Computer Science & Engineering, and Department of Computer Science of IMS Engineering College, Ghaziabad. The conference was held on 26th June 2021.

The conference started with the welcoming of all the eminent speakers and event briefing given by Prof S N Rajan, Program Chair & HoD IT. The Hon'ble Director, Dr. Prabal K. Chakravorty, gave the inaugural remark, welcomed the delegates, and congratulated the students for their active participation and further motivated them for exploring new trends of innovative challenges.

The Key note speakers & Guest speakers of the conference inaugural session were:-

- 1.Mr.Shirish V Pandey, Asia -Pacific Head, Redhat Academy , who elucidated on Redhat Enterprise &Open Source software products. He briefed about platforms like Linux, Cloud to be incorporated in curriculum to help Institutions keep pace with the advancements in Technology. He further extended his suggestion to the students to emphasize more on Business Solutions along with Tech solutions.**
- 2.Er.Wassfi Hassan El- Sreihin, Ex Secretary General, AARDO (African- Asian Rural Development Organisation) from Jordon ,imparted knowledge about how Computer Science benefiting Civil Engineering Sector by sharing knowledge on Structure Engineering, Water Resource Management & Advancements in Transportation Management System using Artificial Intelligence & IoT.**
- 3.Mr.Sinisha Rudan, Faculty, CHAOS, Science & Arts for Humanity & Culture, Belgrade, Serbia. enlightened the audience on "Creativity and Innovation Capacity" in IT & Computing, shared information on "Ecosystem for Collaboration-Colab.Space", an ecosystem of methodologies & IT technologies for enabling scientific & artistic dialogue.**

EVENTS

4. Dr.Subarna Shakya, Professor & Director, IT Centre of Tribhuvan

University, NEPAL, shared his expertise & knowledge about Cloud Computing Models & SPI Service Model. He briefed about ways to secure SAAS environment.

The technical sessions of the conference was divided into seven parallel tracks, each headed by eminent academicians from

different Institutes as Session Chair. They were

Dr. Koj Somboy, Senior Faculty, NIT Arunachal Pradesh.

Dr.Subarna Shakya, IT Centre of Tribhuvan University, NEPAL. Dr. Amit Sinha, ABESEC, Ghaziabad

Dr. Anu Chaudhary , AKGEC, Ghaziabad Dr. Amit Singhal , RKGIT, Ghaziabad

Dr. Abhinav Juneja, KIET, Ghaziabad

Dr. Vishan Gupta, Senior Faculty, Graphic Era University, Dehradun

Agenda of the conference

The conference served as a platform by providing the final year students of all branches of Engineering to discuss and present their research findings and original and innovative ideas in form of short presentations on Computational Intelligence. The conference received

53 research papers from total 197 authors. Advancements in techniques and recent research trends were discussed and explored. The Conference ended with a Vote of Thanks, given by Prof. Pankaj Agarwal, Program Chair, expressing his gratitude to hon'ble Guests, Director Sir, host and the talented students. He further extended his gratitude and congratulations to all the Members of Organizing committee for making this Conference a great success.

EVENTS

- *IMSEC has organized a webinar on “Youth Power and Global Challenges” on 12th August, 2021 in the occasion of International Youth Day. The resource person of the webinar was Dr Suman Gupta, who is a renowned faculty of Environmental Science and Human Values in IMS Engineering College. She had thrown light on various aspects of Youth power and their role in solution of global challenges and for bringing social reform within a country. She enlightened the audience about the power of youth in the society and talked about spreading the awareness for youth rights and security in our surroundings to make each youth of the society aware about their power. She talked about the role of teacher in efficient improvement of Youth power. Overall session was interactive and faculties and students asked their queries. This webinar is done by Ms. Shruti Keshari and Dr. Suman Gupta.*

EVENTS

- Independence day Celebration:-

We had celebrated our 75th independence day on 15th August 2021, in our college premises. In this occasion ,we all are celebrated flag hosting by our respected director sir and all admin staff members are the part of this event.

EVENTS

SWACHH BHARAT MISSION

Swachh Bharat Abhiyan was launched on 2nd October 2014 in order to honor Mahatma Gandhi's vision of a Clean India. The cleanliness campaign of Swachh Bharat Abhiyan was run on a national level and encompassed all the towns, rural and urban. Abhigyan club of Computer Science and Engineering department of IMSEC organized plantation activity on 24th Sept 2021 under the mission of Swachh Bharat Abhiyan. Abhigyan club provides a platform for students to exhibit their managerial talent by participating in various social activities. This event took place under the guidance of Dr. Avdhesh Gupta (HOD of Computer Science and Engineering). The faculty coordinator was Ms. Chandra Pushpanjali Patel and Mr. Naveen Kumar Rathor. Around 40 students participated in this event. The event was celebrated with more fun and more entertainment

CURRENT AFFAIRS

- *CSIR-CMERI has handed over the “CSIR-CMERI developed Solar DC Cooking System” to Asansol Braille Academy in West Bengal on September 22, 2021. CSIR-CMERI developed Solar DC Cooking System This Solar DC Cooking System is a “Solar Energy based Cooking System” that comprises of solar PV panel, battery bank, charge controller and cooking oven.*
- *The International Astronomical Union (IAU) has named a Lunar crater at the south pole of the moon after the Arctic explorer Matthew Henson. Key Points Matthew Henson was a Black man who was one of the first people who stand at the very top of the world, in 1909.*
- *As per Food Safety and Standards Authority of India (FSSAI) study, India is all set and is on the right track to become industrial trans fat-free by 2022. Key Points In India, only 1.34 percent of the newly tested processed food samples shows more than the permissible levels of ingredients. FSSAI cited pan-India survey results.*
- *According to India’s federal cyber security agency, CERT-In, a banking Trojan malware has been detected in Indian cyberspace. This trojan is lurking to attack bank customers using Android phones. Highlights As per Indian Computer Emergency Response Team (CERT-In), Trojan malware has already targeted customers of more than 27 public and private sector banks.*
- *According to a study, published in the journal BMJ Open, out of 150 patients hospitalised for Covid in the United States in the initial phase of the pandemic, 73 per cent had delirium. Highlights According to the study, patients with delirium tended to be sicker, with other comorbidities like hypertension and diabetes.*

CURRENT AFFAIRS

- *The Automotive Research Association of India (ARAI) has developed its indigenous charger for electric vehicles (EV) in order to give a push to EV ecosystem in India. Key Points According to ARAI Director, Reji Mathai, in order to promote EVs, infrastructure for charging is important. Currently, in India, mobility chargers are imported.*
- *India and Singapore have announced the linking of the Unified Payments Interface (UPI) and PayNow, in order to enable users to make instant, low-cost fund transfers. Highlights The project to link the fast payment systems of both the countries was announced by Reserve Bank of India (RBI) and Monetary Authority of Singapore (MAS).*
- *According to the chief of Indian Space Research Organisation, K Sivan, India will soon come out with a new foreign direct investment (FDI) policy for the space sector.*
- *Colexion is an NFT trading and community platform. It provides users with trade, purchase, and interactive activities. It will feature NFT collections of global stars. Through this platform, users would be able to buy different tiers of blind boxes and own celebrity's limited NFT collections. Each NFT collectible comprise of a unique record on the blockchain.*
- *Union Minister of State for Health & Family Welfare, Bharati Pravin Pawar, inaugurated "Digital Population Clock" on September 10, 2021. Minister also presided over the Seminar on Population, Human Capital and Sustainable Development. Digital Population Clock was inaugurated at the Institute for Economic Growth inside the University of Delhi. She also launched a book titled "Infant and Child Mortality in Assam - Demographic and Socio-Economic Interrelations" on the occasion. The book was written by Dr Dipanjali Haloi and Dr Suresh Sharma.*
